

MOTHER

GOING TO POT

JOHN HIGGINS

RONNIE O'SULLIVAN

STEVE DAVIS

= STEPHEN HENDRY

Using snooker colours, these are the people who have won 4, 5, 6 and 7 World Snooker Championships (represented by the background colours), with their names represented using letter frequencies of their names on a QWERTY keyboard (i.e. a yellow key means that letter appears twice in their name). JOHN HIGGINS has won 4 times, RONNIE O'SULLIVAN 5 times, STEVE DAVIS 6 times, the only person to have won 7 times is STEVEN HENDRY, the answer to this puzzle.
