

23 AROUND THE WORLD

In this puzzle you had to put letters in the areas of the diagram where 3 circles intersect in order to make the names of eight countries. Starting from the top, and going clockwise, those countries are:

Denmark, Canada, Finland, Afghanistan, Egypt, Cyprus, Honduras, Ukraine

The answer is then the letters you have added, starting at the top and going clockwise, DAFT PUNK - who had a hit song called 'Around The World'.
