

LOWER

STATE LINES

SEDATE

SALESMEN

S T A T E O F
S A N T A F E

This puzzle is about STATES constructed along various LINES. By putting one letter in each circle, and following the arrows, you can make the names of seven different states. The top left is WISCONSIN, for example. Placing the grey letters in the middle, the phrase "STATE OF SANTA FE" can be made, making the answer NEW MEXICO.

not telling you!
