

CIRCULATEASERS

In this puzzle you had to solve cryptic clues and fit them into the circles provided. The only way to make them fit was to overlap the words by two letters, like in the title of the puzzle.

Once the circles are filled, the dots on the outside correspond to GIE BUN FPS - but if we order them by the starting word of each circle (first, second third), we get BUNGIE FPS. Bungie is a games company that has made several First Person Shooter games, and the FPS we are after here that they have made is HALO, another type of circle.

Clues were provided in alphabetical order of their answers, which may have helped you if you spotted it. The clue answers are as follows:
